Request for Information – GIS Shapefiles

Dear County Assessment Office,

Our firm, Taxography, Inc., creates geographic information system (GIS) maps of county tax jurisdictions from parcel boundaries and their associated tax district codes. This data is used to help corporate tax filers more accurately report their assets by tax jurisdiction.

Pursuant to the *Illinois Freedom of Information Act (FOIA)*, we would like to request the following:

Do you have county GIS data of:

- 1) Individual parcel boundaries and their associated Parcel Identification Numbers (PINs), and
- 2) In addition to parcel boundaries and PINs, do you have the Tax Code(s) assigned to those parcels?

If the county GIS data does not include Tax Codes:

- 1) Do you have Real Estate Tax Rolls which include both PINs and Tax Code(s) assigned to individual parcels?
- 2) If you do have Real Estate Tax Rolls, how are they formatted?

**Special Note: We cannot make use of GIS maps made available through a web-based interactive mapping portal. We can, however, make use of the underlying source GIS data for these applications, if that source data is in a standard GIS format (e.g., Esri Shapefile, Geodatabase, etc.).*

Processing Fees

- 1) Are there any processing fees to receive this information?
- 2) If so, what are the costs?
- 3) If there are any fees, please receive confirmation to proceed from us before fulfilling this

request.

If you have any questions or require additional information, please contact me at 314.863.9292 ext. 111 or abell@taxography.com. Thank you for your assistance. It's appreciated!

Warm regards,
Alison
